

June 10, 2021

Dear Parents/Guardians:

The district is receiving funds from the American Rescue Plan, the federal program for pandemic assistance. As part of our planning for next school year, we need input on the needs of Horseheads students from our stakeholders – students, parents, staff, businesspeople, support organizations, community members, etc. We appreciate your assisting us in this process by sharing your input through the form at this link: <https://forms.office.com/r/zsrAedjrRP>. The district will consider this input as well as a variety of resources and data when making decisions for the allocation of these funds. The form closes Tuesday, June 15, at 3pm.

Our Transportation Department is holding a Bus Driver Job Fair this Saturday (June 12) from 1-4pm at the transportation facility located at 601 Sayre Street Extension. All are welcome to come learn more about one of the most important jobs in our district – transporting our children safely to and from school. [Click here for more information.](#) We ask that you share this information with anyone who might be interested in becoming a Horseheads bus driver.

Our High School Varsity “H” Club is pleased to be able to offer summer camps this year. Please click here for the schedule and more information: <https://horseheadsdistrict.com/VarsityHSummerCamps2021.cfm>.

Yesterday, the health survey emails went out inadvertently. The system had been prepared for the last two Wednesdays being in-person days and had not been set to turn off for this Wednesday. We apologize for the inconvenience.

As this school year draws to a close, we feel so appreciative of the hard work of our students, staff, and families to manage this very challenging school year. We are looking forward to end of year activities in our buildings, hoping to offer a small bit of “normalcy” in a year that was anything but normal. Thank you for your care, concern, and dedication to our children.

Sincerely,

Dr. Thomas J. Douglas
Superintendent of Schools
