Dear Parents/Guardians:

As of the writing of this update, the state has not provided guidance for the upcoming school year. Once we receive that information, we will share it. We write to you today to share other items of information:

Voluntary COVID vaccination clinics August 2 and 3

Horseheads and neighboring districts are working with the Chemung County Health Department to offer **voluntary COVID vaccination clinics** for anyone age 12 and older. In Horseheads, the clinics are Monday, August 2, from 1-3pm, and Tuesday, August 3, from 9-11am, and will be held in the Horseheads Intermediate School Gym.

Please note that the vaccination is not required. The districts are working with the Health Department to assist those who wish to be vaccinated or have their children vaccinated before the start of school in September. Again, the vaccine is not required.

The vaccine offered at these clinics is the Pfizer vaccine. A second dose clinic will be held 21 days after the initial clinics. Note that pre-registration for the clinics is recommended but not required. **Walk-ins will be welcome. Anyone age 12 or older may attend the clinics.**

At the event, we will hold interviews for positions. Participants are asked to bring a current cover letter, resume, and letters of recommendation if possible. We will also have information on other open positions in the district.
